

## MOTORIZED HOSE REEL

### VEHICLE EXHAUST EXTRACTION REEL

The motorized hose reel (MHR) is designed to retract the hose via an electric motor. The MHR is operated up and down by means of a mobile wired control, wall mounted or remote control. This hose reel is ideal for general and light duty vehicle workshops.

With the hose safely elevated, other equipment in the workshop can be operated safely. This hose reel also limits potential damage to personnel and vehicles. The MHR maximum lifting capacity is 18 kg (40 lbs)\*.

\* at hose diameter 150 mm (6 in.)

### APPLICATIONS

The MHR is intended to be used for the following applications:

- To eliminate hazardous vehicle exhaust emissions with our vehicle exhaust capture and removal systems for the following segments: fire and emergency service stations as well as military facilities.
